

HITCTF2022 Invitation Letter

Dear (University/School):

On behalf of Harbin Institute of Technology, we would like to invite a student team of your university to HITCTF2022-International Invitational Competition in Cybersecurity, held on November 26-27, 2022.

The security situation in cyberspace is constantly changing, and college students are an important part of defending cyberspace security in the future. This competition is held according to the international rules of Capture the Flag(CTF). Through this competition, teams can acquire demonstrate skills of computer science and improve their knowledge and practical skills of cybersecurity, and motivate their innovation and soft skills. Furthermore, it is an opportunity to promote the cooperation between universities as well. Aiming to share the knowledge and skills of cybersecurity, the First HITCTF was held in 2016, and this year is the fifth year of this competition. We hope it could build a bridge of cooperation in many aspects between universities.

HITCTF2022 will be held on November 26-27, 2022. This year, the competition is cosponsored by the School of Cyberspace Science, HIT (Harbin Institute of Technology) , Antiy Technology Group Co., Ltd. and Hunan Yijing Co., Ltd. Besides, this competition is co-organized by the Computer Network and Information Security Technology Research Center of HIT and the Lilac CTF Association of HIT.

This CTF competition is an invitational competition with online registration and online problem-solving mode. Each invited university selects a team with maximum 5 people (1 instructor and 4 students).

The HITCTF2022 Organizing Committee sincerely invites you to participate in HITCTF2022 with your passion for network security!

School of Cyberspace Science, Harbin Institute of Technology
